---

Chuck,

This looks good. Attached is the version with Jeff's electronic signature.

Thanks for your patience as we worked through the final details.

Jon

**EXTERNAL - STOP & THINK** before opening links and attachments.

Hi Jon

Attached is a signature ready version of the consent agreement. I've prepped signature blocks for both signatories. Jeff just needs to click on the orange signature sticky note replica in the box above his block to start the process. Also, please ask Jeff to not lock the document after he signs. That way Janice will be able to sign as well, and the regional hearing clerk will be able to add a docket number.

The document reflects the changes you and I discussed last week (shown in the RLSO version Linda sent yesterday), including a change from 30 to 45 days for the groundwater monitoring system plan in para. 94, and the modification you suggested by email yesterday for 94.c.

I've made a couple of small clean up changes as well. It turns out that there was a blank paragraph 62, which I deleted and which caused renumbering. I've checked the cross-references and they work. Also, I deleted the footer and took out the quotation marks from the parenthetical (HASP). Finally, I've added or deleted spaces and hard returns in a few spots.

We've just received Jennifer's well list. Linda will review it and get back to Jennifer as quickly as possible. Since this is a workplan matter, though, I thought it wouldn't hurt to move the document toward signature while those discussions continue.

Please let me know if you spot any other typos, etc. that should be fixed before signature and I'll revise.

Thanks.

**Chuck**
